PROFESSIONAL SUMMARY

Creative and versatile Designer with experience in UI/UX design, visual communication, presentation design, and digital content creation. Skilled in crafting intuitive user interfaces, engaging marketing materials, and professional business presentations that align with brand identity and business objectives. Proficient in Figma, Framer, Adobe Creative Suite, and PowerPoint, with a strong focus on user-centered design, problem-solving, and delivering high-quality visual experiences in collaborative environments.

EDUCATION

AND Academy May2025 – Dec2025
Diploma in UI/UX Design New Delhi

Chandigarh University Sept2022 – June2025
Bachelor of Computer Applications (BCA) Chandigarh

EXPERIENCE

Associate Designer — Bough Consulting May2026 – Present

- Designing thoughtful digital experiences that enhance usability and drive business value.
- Transforming complex requirements into intuitive interfaces, workflows, and design solutions.
- Working closely with product, business, and engineering teams to deliver impactful user experiences.

UI/UX Designer — Freelancer Aug2025 – April2026

- Designed responsive websites and mobile app interfaces across multiple industries.
- Created wireframes, prototypes, and design systems using Figma.
- Collaborated directly with clients to translate business goals into intuitive user experiences.

UI/UX Designer Intern – EazyByts Sept2025 – Oct2025

- Designed mobile app screens, user flows, and dashboard experiences for MVP development.
- Built high-fidelity prototypes and reusable design components in Figma.
- Conducted usability testing and improved interface consistency through design systems.

UI/UX Designer Intern – Chandigarh University May2024 – June2024

- Conducted user research, interviews, and journey mapping to identify user needs.
- Designed wireframes and interactive prototypes for stakeholder validation.
- Collaborated with developers and product teams in Agile sprint environments.

PROJECTS

Smart Scheduling & Client Management App

- Designed user journeys, wireframes, and high-fidelity mobile app screens.
- Created interactive prototypes and implemented micro-interactions.
- Integrated AI-assisted scheduling and automated notifications.

CoffeeBites E-commerce Website

- Designed information architecture, UI kit, and high-fidelity UI for a 12-page e-commerce website.
- Built a responsive design and validated usability through 6 user tests.

Monument Website

- Designed a modern minimal website using grid systems and responsive layouts.
- Created user flows and UI components to improve navigation clarity.

Revive – Typographic Poster Series

- Designed a 24-poster typographic series exploring hierarchy, spacing, and alignment.
